

connection'16

Arfai is glad to launch a wide and diverse selection of new ceramics for the home - clean designs, soft colors and smooth textures referring to calmness and serenity and, per opposition, outstanding shapes, strong colors and vibrant glazes to decorate with energy and dynamism. In connection'16 one will certainly find the one thing you (and so your business) will identify with: a casual style, a more luxurious line, a color for spring, summer or even for fall. Versatility and diversity, added to the usual tailor made service offered by the company.
