

# GROW SENSITIVE

SEASON ONE '21

Conscious, honest, **admittedly** simple, and authentic. This is the new vanity.

The more thoughtful consumption guiding consumers' choices has cultivated a mindful and accepting aesthetics that is brought indoors.

**Modest shapes** that are honest to their function and embody both the strength and humbleness of the handcrafted process and the ceramics material; **Balanced color schemes**, combining earthy neutrals with intense tones to recall this sense of purity and genuineness; Multiple **decoration techniques** that highlight the manual making process behind each ceramic piece.
